Risico joins the forefront of a changing Workers' Compensation landscape, with the expertise to deliver fully integrated, innovative insurance solutions desired by employers, employees and insurance brokers.

FRESNO, CA, September 2, 2015 – Three jointly-owned companies - KRM Risk Management Services, Inc. (KRM), American All-Risk Loss Administrators, Inc. (AARLA) and Total Managed Care, Inc. (TMC) are merging to a united corporate identity under the “Risico” banner to reflect its renewed commitment to deliver innovative insurance, claim and managed care solutions desired by insurance brokers, self-insured and private employers and their employees.

“Risico companies are specialists in Workers' Compensation insurance, providing expertise that includes underwriting, policy administration, claims administration and managed care services, such as utilization review, clinically focused/early intervention activities, nurse case management and bill review. We are changing the company names to reflect a healthier, integrated approach to our customers and their employees. For employers throughout California, Risico delivers complete, start-to-finish Workers' Compensation solutions that are flexible and interchangeable to meet the specific and changing needs of our customers,” announced Steven Wigh, Risico CEO.

“Our goal is to manage and reduce risk by facilitating the return of injured employees back to work as quickly as possible. To achieve this goal, we strive to build a strong rapport with all stakeholders, emphasizing collaboration and communication throughout the process,” Wigh said.

The newly-named, Fresno-based companies will change KRM to Risico Insurance Services, Inc., AARLA to Risico Claims Management, Inc. and TMC to Risico Total Managed Care, Inc.

“Every employer has a unique list of considerations and concerns. Risico designs unique strategies around the needs of our customers. Risico promises a high-touch, highly personalized level of service that simply serves our customers better. We use data analytics to benchmark our work, providing our clients with the feedback they need to monitor and improve their Workers' Compensation programs,” Wigh said.
